

31 May 2026

LETTER OF ENROLLMENT AND CONDITIONAL OFFER

Dear **Jordan A. Rivera**

Congratulations! The Registrar at Woolf has reviewed your educational credentials and determined that you are eligible to enroll for Performance-Based Admission (PBA) to the **Master of Science in Computer Science** degree offered through **Ada Lovelace College**, a full constituent college of Woolf.

Woolf is an accredited Higher Education Institution in Europe (license 2019-015). All degrees conform to the European Qualifications Framework, and the full programme typically requires 1800 hours of study.

The earliest enrollment date is 31 May 2026 and the earliest graduation date is 30 November 2027. The standard tuition fee is 12,000 EUR.

Your official status

As a PBA student, you are now fully enrolled in the Higher Education Institution and in **Ada Lovelace College**, and you are now fully enrolled in each of your courses, but you are not yet accepted or matriculated into the **Master of Science in Computer Science** degree. You have a student ID card, and you can see your progress on your student dashboard.

The conditional offer of degree admission

Your official matriculation into the degree will be automatic only on the condition that you meet the following PBA criteria: you must complete the lesser of either ≥ 200 hours or $\geq 20\%$ of the degree with a GPA of 80% or above. Only after meeting these conditions will you secure official admission and matriculate into the degree program.

Why we took this decision

You have been enrolled as a PBA student because we understood, on the basis of the documents that you submitted, that you do not meet the standard requirements for admission, but that you remain confident that you can succeed in the degree. If you believe that this is in error, please let us know immediately.

If you would like to become fully enrolled into the degree sooner, you can apply for Recognition of Prior Learning (RPL). Should you choose to pursue RPL, a fee will be applicable for the manual review of your life experiences and prior learning. This process can occur at any point during your PBA journey and may result in full enrollment based on the assessment of your qualifications.

Congratulations once again on your enrollment and conditional offer, and we look forward to your success in meeting the PBA criteria and becoming a fully matriculated student at Woolf. We hope you will thrive in this innovative intellectual community and find Woolf and its colleges to be an excellent place to prepare you for your future role in the world.
